1. I agreed to arrange a luncheon for Station Chiefs on 24 October.

2. [REDACTED] was up to brief me on a number of developments. He has continued his courtesy calls on senior officials and this past week has had a most satisfactory meeting with Dick Bissell. As a result of my inquiry about the Audit Staff's interest in compliance with Administrative Plans, [REDACTED] briefed me on the extent to which they have looked into this matter and I am satisfied that it is quite thorough; however, the follow up to insure that there is compliance leaves a great deal to be desired and he is going to correct this situation. He is having some problem with the case officer for Project [REDACTED] and is going to talk with [REDACTED] about it sometime soon. I reviewed my philosophy with him and told him that only the Director could keep him out of any project. He said that the Director and General Cabell had mentioned this in his conferences with them and that he would make this clear to anyone who attempted to prohibit an audit. He also stated that the Director expected to be informed of important unsatisfactory situations disclosed by audit. I think that we must send him more of these reports in the future than we have in the past; however, it should always be done with the full knowledge and possibly the comment of the responsible official and the Deputy Director concerned.

3. I asked General Cabell to invite [REDACTED] to lunch some day next week and discuss with him the over-all management problems of [REDACTED]. He said that he would be very glad to do this.

4. I briefed General Cabell on [REDACTED] problem and his forthcoming resignation. He agreed that we should not attempt to dissuade him from resigning.
